

Bass Road & Hadley Road Intersection

(DES# 0902238)

Project Description

This is part of the Bass Road widening project from Hillegas Road to Scott Road. Improvements to this intersection may include sight distance, geometrics and adding turn lanes and traffic signals where necessary. For more information on the overall project, please see Bass Road #0400582.

The preliminary engineering for this project began in 2009. The right of way for this intersection is scheduled for 2012 with construction to begin in 2013. The \$200,000 for right of way is part of the \$2,200,000 programmed for the overall project. The funding for this project is provided through the Surface Transportation Program (STP) and Congestion Mitigation Air Quality (CMAQ).

The following is the cost breakdown for the Bass Road & Hadley Road intersection project.

Project Phase	Estimated Cost	Year	Federal Share	State Share	Local Share
RW	200,000	2012	160,000	0	40,000
CN	2,000,000	2013	1,600,000	0	400,000
Total	\$2,200,000		\$1,760,000		\$440,000

The local agency responsible for this project is the Allen County Highway Department. You may contact the Engineering Department at 449-7369, if you have any questions or comments.
