

Coverdale Road: Bridge #231 over Robinson-Brindle Ditch

(DES# 0710344)

Project Description

This bridge replacement project will widen Bridge #231 to 31' clear roadway width. In addition to the widening the following will also be included in the project, concrete deck overlay, barrier rails, reinforced approach slabs, and guardrail. This bridge project is part of the Coverdale Road reconstruction project from Airport Expressway to Indianapolis Road.

The construction phase of this project will begin in 2012 along with the Coverdale Road project. This project is being funded through the Group IV - Bridge fund.

The following is the cost breakdown for the Coverdale Road Bridge #231 project.

Project Phase	Estimated Cost	Fiscal Year	Federal Share	State Share	Local Share
CN	862,900	2012	690,300	0	172,600

The local agency responsible for this project is the Allen County Highway Department. You may contact the Engineering Department at 449-7369, if you have any questions or comments.
