

Gump Road: State Road 3 to Coldwater Road

(DES# 0400584)

Project Description

The project range is from approximately 410' west of SR3 and would continue east to a point approximately 1000' west of Coldwater Road. The project involves widening and resurfacing Gump Road to a three lane roadway. The roadway will consist of two 12' travel lanes separated by a 12' two-way left turn lane (TWLTL). The outside edge of each travel lane will be bordered by a 2'7" curb and gutter section, except at SR3 where 5' usable shoulders are proposed. Along the southside of Gump Road an 8' asphalt trail will be constructed. Along the northside of Gump Road will be a 5' sidewalk. The design speed will be 45 mph.

The right of way phase of this project is scheduled for 2011. Construction is scheduled to begin in 2013. The funding for this project is provided through the Surface Transportation Program (STP).

The following is the cost breakdown for the Gump Road project.

Project Phase	Estimated Cost	Fiscal Year	Federal Share	State Share	Local Share
RW	1,000,000	2011	800,000	0	200,000
CN	7,808,000	2013	6,246,400	0	1,561,600
Total	\$8,808,000		\$7,046,400		\$1,761,600

The local agency responsible for this project is the Allen County Highway Department. You may contact the Engineering Department at 449-7369, if you have any questions or comments.
