

# Bass Road & Hadley Road Intersection

(DES# 0902238)

## UNDER CONSTRUCTION

### Project Description

This is part of the Bass Road widening project from Hillegas Road to Scott Road. This intersection will be redesigned into a roundabout. Many alternative plans were reviewed and it was decided that a roundabout was the best solution for this unique intersection. The roundabout will improve safety and congestion at this intersection, two of the main concerns for improvement. For more information on the overall project, please see Bass Road #0400582.

The preliminary engineering for this project began in 2009. The right of way acquisition for this intersection began in 2013. The project letting was in November 2016 and construction will begin in the spring of 2017. This phase of Bass Road was combined with the Shakespeare Boulevard to Clifty Parkway phase and will be constructed together. The funding for this project is provided through Congestion Mitigation Air Quality (CMAQ).

The following is the cost breakdown for the Bass Road & Hadley Road intersection project.

Project Phase	Estimated Cost	Fiscal Year	Federal Share	State Share	Local Share
RW	615,000	2013	492,000	0	123,000
CN	3,420,400	2017	2,736,300	0	684,100
<b>Total</b>	<b>\$4,035,400</b>		<b>\$3,228,300</b>		<b>\$807,100</b>

*The local agency responsible for this project is the Allen County Highway Department. You may contact the Engineering Department at 449-7369, if you have any questions or comments.*
